

LINC2

Helping you
make child's play
out of tough RF
and microwave
design
problems

RF & microwave circuit design made easy.

- **Exact Circuit Synthesis**
- **Accurate Simulation**
- **Powerful Optimization**
- **Statistical Yield Analysis**

LINC2 automatically creates schematics for a wide variety of active and passive circuits, synthesizes broadband and narrowband networks, lumped and distributed topologies, including differential and single-ended configurations.

LINC2 from ACS
-Escondido, CA

- **Powerful**
- **Accurate**
- **Affordable**
